

Lights on the Hill – D Major and E Major

Intro: [D] x4

Verse 1
two men: It's a [D] long straight road and the engine is deep.
I [G] can't help thinkin' of a good night's sleep,
And the [A] long, long roads of my life are a-callin' [D] me.
These rough old hands are a-glued to the wheel.
My [G] eyes full of sand from the way they feel,
And the [A] lights comin' over the hill are a-blindin' [D] me.

Verse 2
all men It's a [D] long, tough haul from a-way down south.
A [G] man's gotta find a little bread for his mouth,
And a [A] home for a girl as sweet as my honey can [D]be.
So, it's down through the gears, she's a-startin' to pull.
The [G] gauge on the tank is a-showin' near full,
And the [A] lights comin' over the hill are a-blindin' [D] me.

Bridge
all There's [A] rain on the road and I can feel the load,
Start a [D] shiftin' in a dance.
Too [A] late, I see the post and I haven't got a ghost
Of a [D] chance, a-ha-ha-no.

Verse 3
*all sing,
women
harmony* The [D] windscreen wipers are a-beatin' in time.
The [G] song they sing is a part of my mind,
And I [A] can't believe this is really happenin' to [D] me.
Oh, but I'm over the edge and down the mountain side.
I [G] know they'll tell about the night I died,
In the [A] rain when the lights on the hill were a-blindin' [D] me

Solo *chords for 1st verse*

Bridge *repeat*

Verse 3 again
*key change to
"E"* The [E] windscreen wipers are a-beatin' in time.
The [A] song they sing is a part of my mind,
And I [B] can't believe this is really happenin' to [E] me.
Oh, but I'm over the edge and down the mountain side.
I [A] know they'll tell about the night I died,
In the [B] rain when the lights on the hill were a-blindin' [E] me
